PROFESSIONAL SUMMARY

Motivated Computer Science student with hands-on experience in software development, backend systems, and AI-based applications. Skilled in Python, JavaScript, Flask, and Django with practical knowledge of full-stack development and machine learning projects.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript

Web Technologies: HTML5, CSS3

Frameworks & Libraries: Flask, Django, React (Basic)

Development Tools: Git, GitHub, VS Code

PROJECTS

Crop Disease Prediction System | *Python, Machine Learning, Flask*

- Developed a crop disease prediction application using machine learning techniques.
- Implemented prediction logic for identifying crop diseases from user input and image analysis.
- Built backend functionalities using Flask and integrated frontend components.
- Focused on improving farming productivity through early disease detection.
- GitHub Repository

Wallpaper Gallery Application | *HTML5, CSS3, JavaScript*

- Created a responsive wallpaper gallery web application with clean UI design.
- Implemented structured layout and responsive design principles.

Flask To-Do Application | *Python, Flask*

- Developed a task management application with CRUD operations.
- Implemented Flask routing and backend task handling functionalities.

EDUCATION

Parul University

B.Tech – Computer Science Engineering

Currently Pursuing

CPI: 7.53

Bihar Board

Class XII – 76%

CBSE

Class X – 75%

OPEN SOURCE & ACTIVITIES

- Participant – Winter of Code
- Open-source collaboration and Git workflows

CAREER OBJECTIVE

To obtain a Software Development Internship where I can contribute to real-world projects, strengthen my technical skills, and grow as a developer.
